SKILLSET HIGHLIGHTS

- Demonstrates proficiency in calendar management, scheduling, and coordinating meetings, ensuring executive time is used efficiently and priorities are met.
- Skilled in data entry, document management, and filing systems, ensuring accuracy and accessibility of records.
- Demonstrates discretion and confidentiality in managing sensitive information and executive communications.
- Capable of handling project support and coordination, including tracking progress, following up on deliverables, and preparing status reports.
- Highly reliable and creative professional with sense of diligence and aptitude to identify and resolve complex problems and effectively multi-task assignments within stringent deadlines.

KEY ACHIEVEMENTS

- Achieved 100% centralisation of inaugural lecture scheduling records by developing and deploying a web-based scheduling system, reducing reliance on manual coordination and improving access to administrative information.
- Strengthened operational efficiency across 3 major e-commerce platforms and 3 logistics providers, supporting accurate order processing, shipment tracking, timely issue resolution, and reliable fulfilment.

- Established 5+ years of progressive operational experience across administration, customer service, technical support, and team coordination, contributing to efficient workflows, accurate documentation, and timely service delivery.

WORK EXPERIENCE – CAREER PROGRESSION

E-Commerce Operations & Customer Support Specialist December 2025 – September 2026

Kovafood Inc., Atlanta, Georgia, USA | Remote

- Managed daily operations across Amazon Seller Central, Shopify and eBay, maintaining accurate listings and product information to support consistent platform performance and efficient order processing.
- Reviewed Buy Box performance and listing health, identifying underperforming products and recommending improvement actions that supported stronger product visibility and sales performance.
- Implemented ongoing quality checks across product listings and customer reviews, tracking issues and escalating negative feedback to support timely corrective actions and improved customer experience.
- Coordinated order and shipment tracking with UPS, USPS and FedEx, resolving delivery issues through timely follow-up and supporting reliable fulfilment and customer service.

Senate Matters and Admission Office Programmer – Akure, Ondo State February 2025 – January 2024

National Youth Service Corps (NYSC), Federal University of Technology, Akure

- Designed and deployed a web-based inaugural lecture scheduling system using PHP, HTML, CSS, and MySQL, improving the organization and accessibility of lecture scheduling records.
- Automated key scheduling processes through a centralized system, reducing reliance on manual records and supporting more efficient coordination of inaugural lecture activities.
- Maintained accurate administrative records, data entries, official documents, and meeting calendars, supporting timely departmental operations and reducing record-management gaps.
- Prepared reports, official correspondence, presentations, and administrative materials, enabling timely delivery of departmental activities and supporting effective internal communication.

Manager / Customer Care Representative / Technical Officer February 2016 – October 2021

DEAR MOTHER NIGERIA LIMITED – Kabba, Kogi State

- Coordinated staff duties and daily operations, ensuring tasks were completed to required standards, within agreed timelines, and with effective use of available resources.
- Managed customer service and CRM operations, maintaining accurate customer records and supporting timely resolution of enquiries and service requests.
- Provided technical assistance to non-technical staff, resolving day-to-day system and operational issues to minimise disruptions and maintain workflow continuity.
- Supervised work processes and service delivery, identifying operational gaps and implementing practical solutions to improve efficiency, customer experience, and overall team performance.
